

TAB CUSTOMER PROFILE

Pharmaceutical

TAB-TRAC – The Prescription To Drug Claim Processor’s Filing Needs

Profile Summary

Increased storage capacity

Improved space efficiency

Increased storage flexibility

Enhanced productivity

Business Challenge

As one of the world’s largest prescription drug processors, Pharmaceutical Card Systems (PCS) maintains a sophisticated computer network that serves 20,000,000 cardholders and more than 90% of all retail pharmacies. To maintain this system, PCS requires storage of enormous amounts of data on reel tapes and cartridges. With the number of tapes and cartridges piling up fast, PCS needed to convert to a storage system that would save space and adequately address future storage needs.

TAB Solution

TAB performed an in-depth space study for PCS, leading to the recommendation of a customized TAB-TRAC mobile storage system. Since PCS would require adaptable storage for a variety of storage mediums during the conversion process, the flexibility of the TAB-TRAC system would prove to be an ideal storage system regardless of the medium. TAB-TRAC increases storage capacity while using less space.

Results

TAB-TRAC mobile storage proved to be the perfect storage solution for PCS’s new storage facility. The flexibility of the TAB-TRAC system allowed PCS to easily convert from reel racks to cartridge racks as their backup medium conversion process has unfolded. With the help of TAB, the conversion was very efficient, and productivity was maintained during the entire process.

About TAB

As a recognized leader in the records and information management industry, we develop custom solutions that enable our customers to control, store and access critical information. We offer top quality filing systems, media storage equipment, furniture systems, imaging solutions and specialists that solve complex records and information management challenges. With more than 50 years of experience, we serve customers in a variety of industries including legal, finance, healthcare, insurance, manufacturing, education and government.
